# RIPE 75 - Dubai Technical Report

Sjoerd Oostdijck | 26 Oct | RIPE 75

# What's new?

- New VMware hardware (supermicro e200-8d)
- RIPE Networking app
- Stenography has cut the cord

*What it looks like in the patchroom*

# Biggest issues

- Harmonised Customs codes
- Getting IPv6 out of the core
- VOIP (one way?)
- Unplugging power (for vacuum cleaners)

*Power distribution units are a good place to plug your vacuum into*

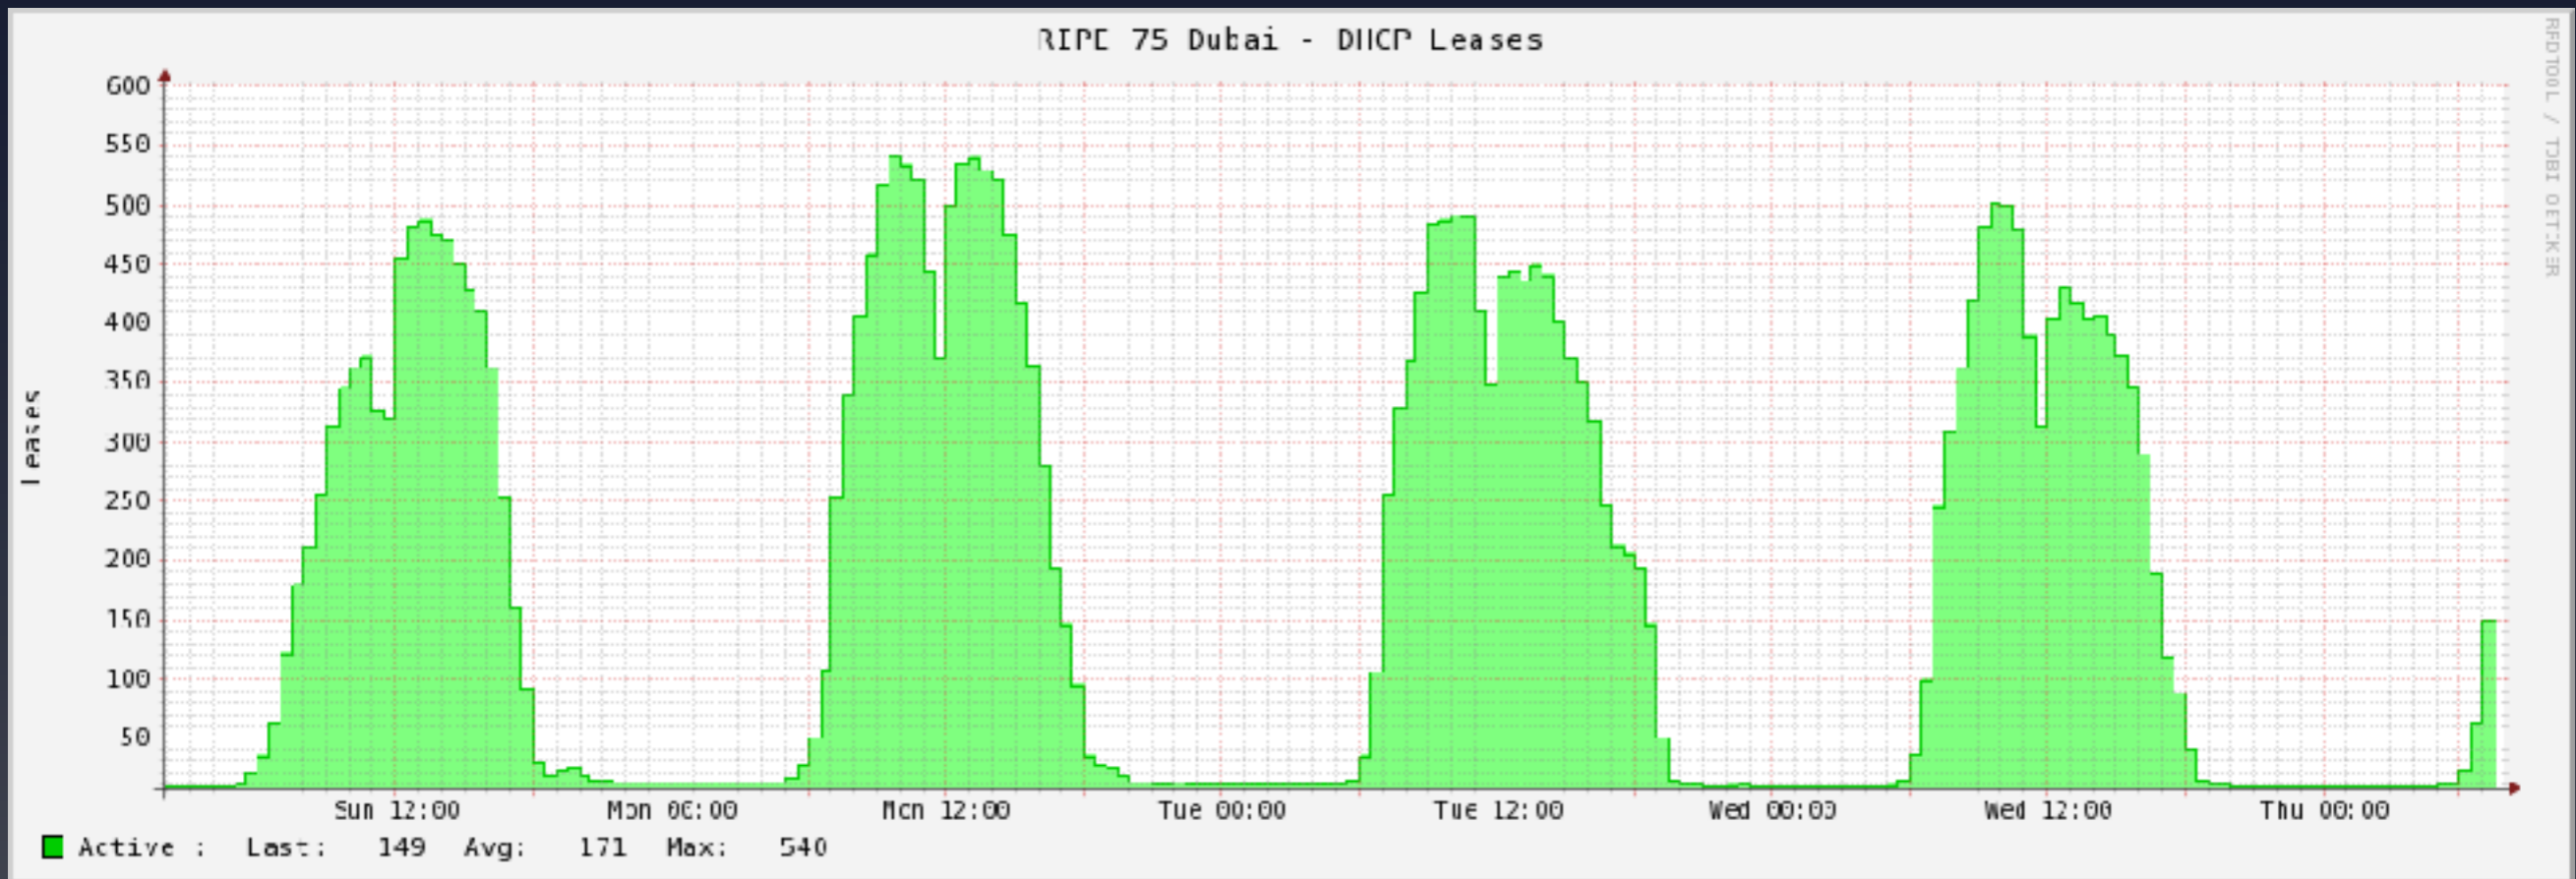

# Network stats

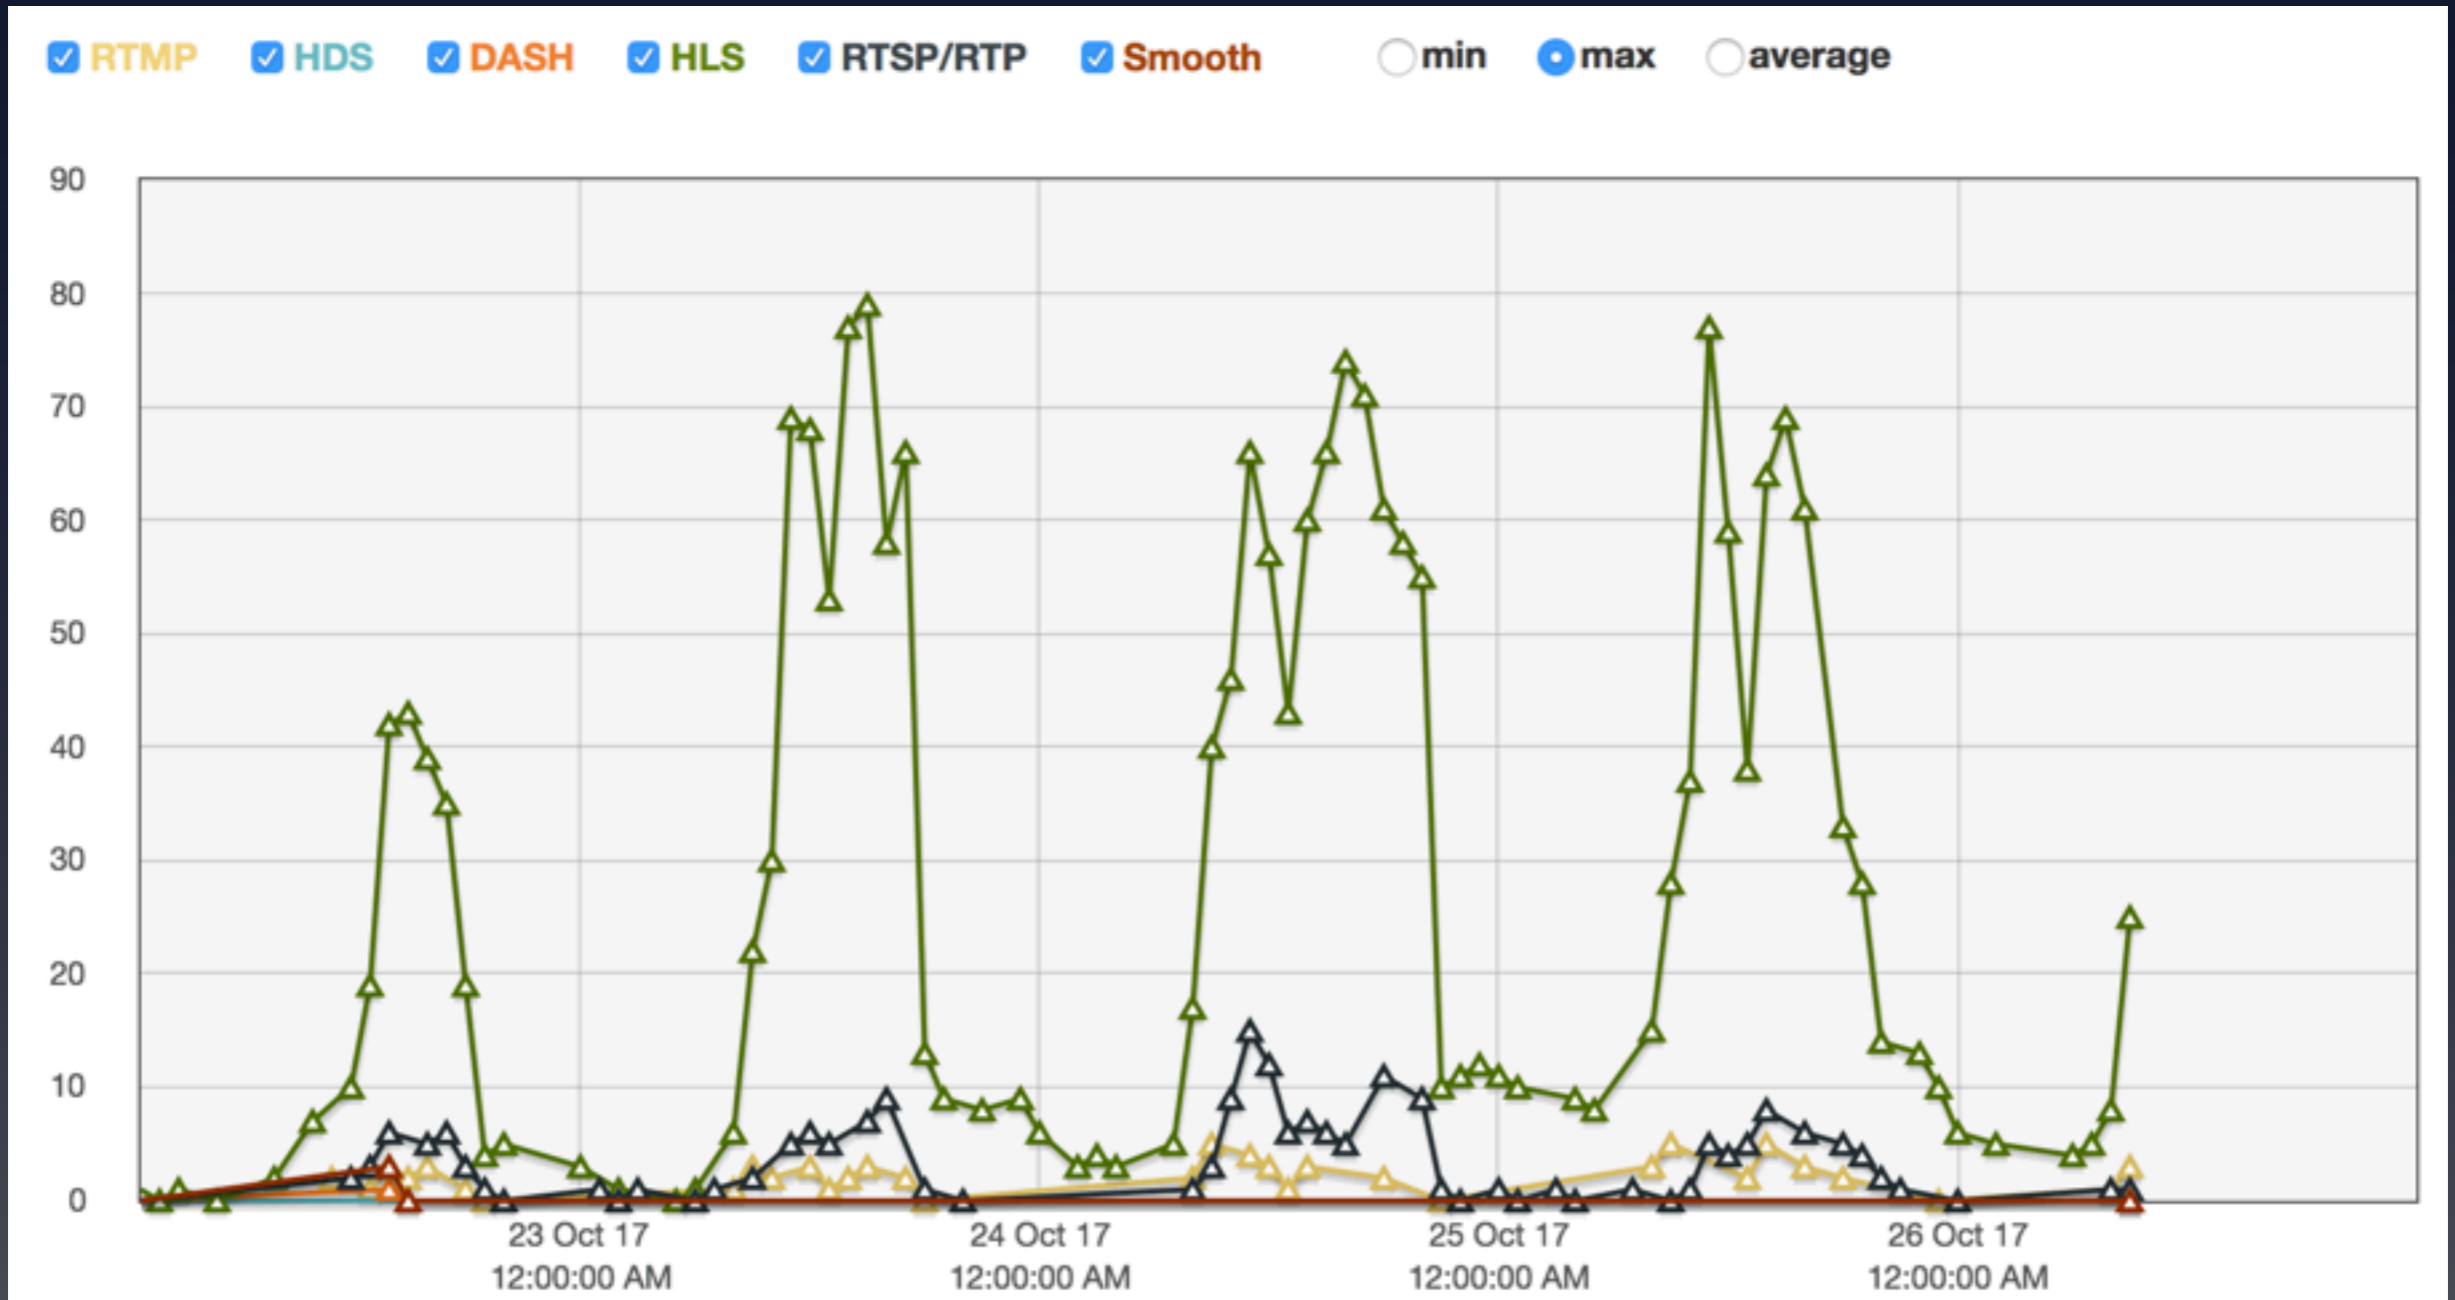

## Router uplink

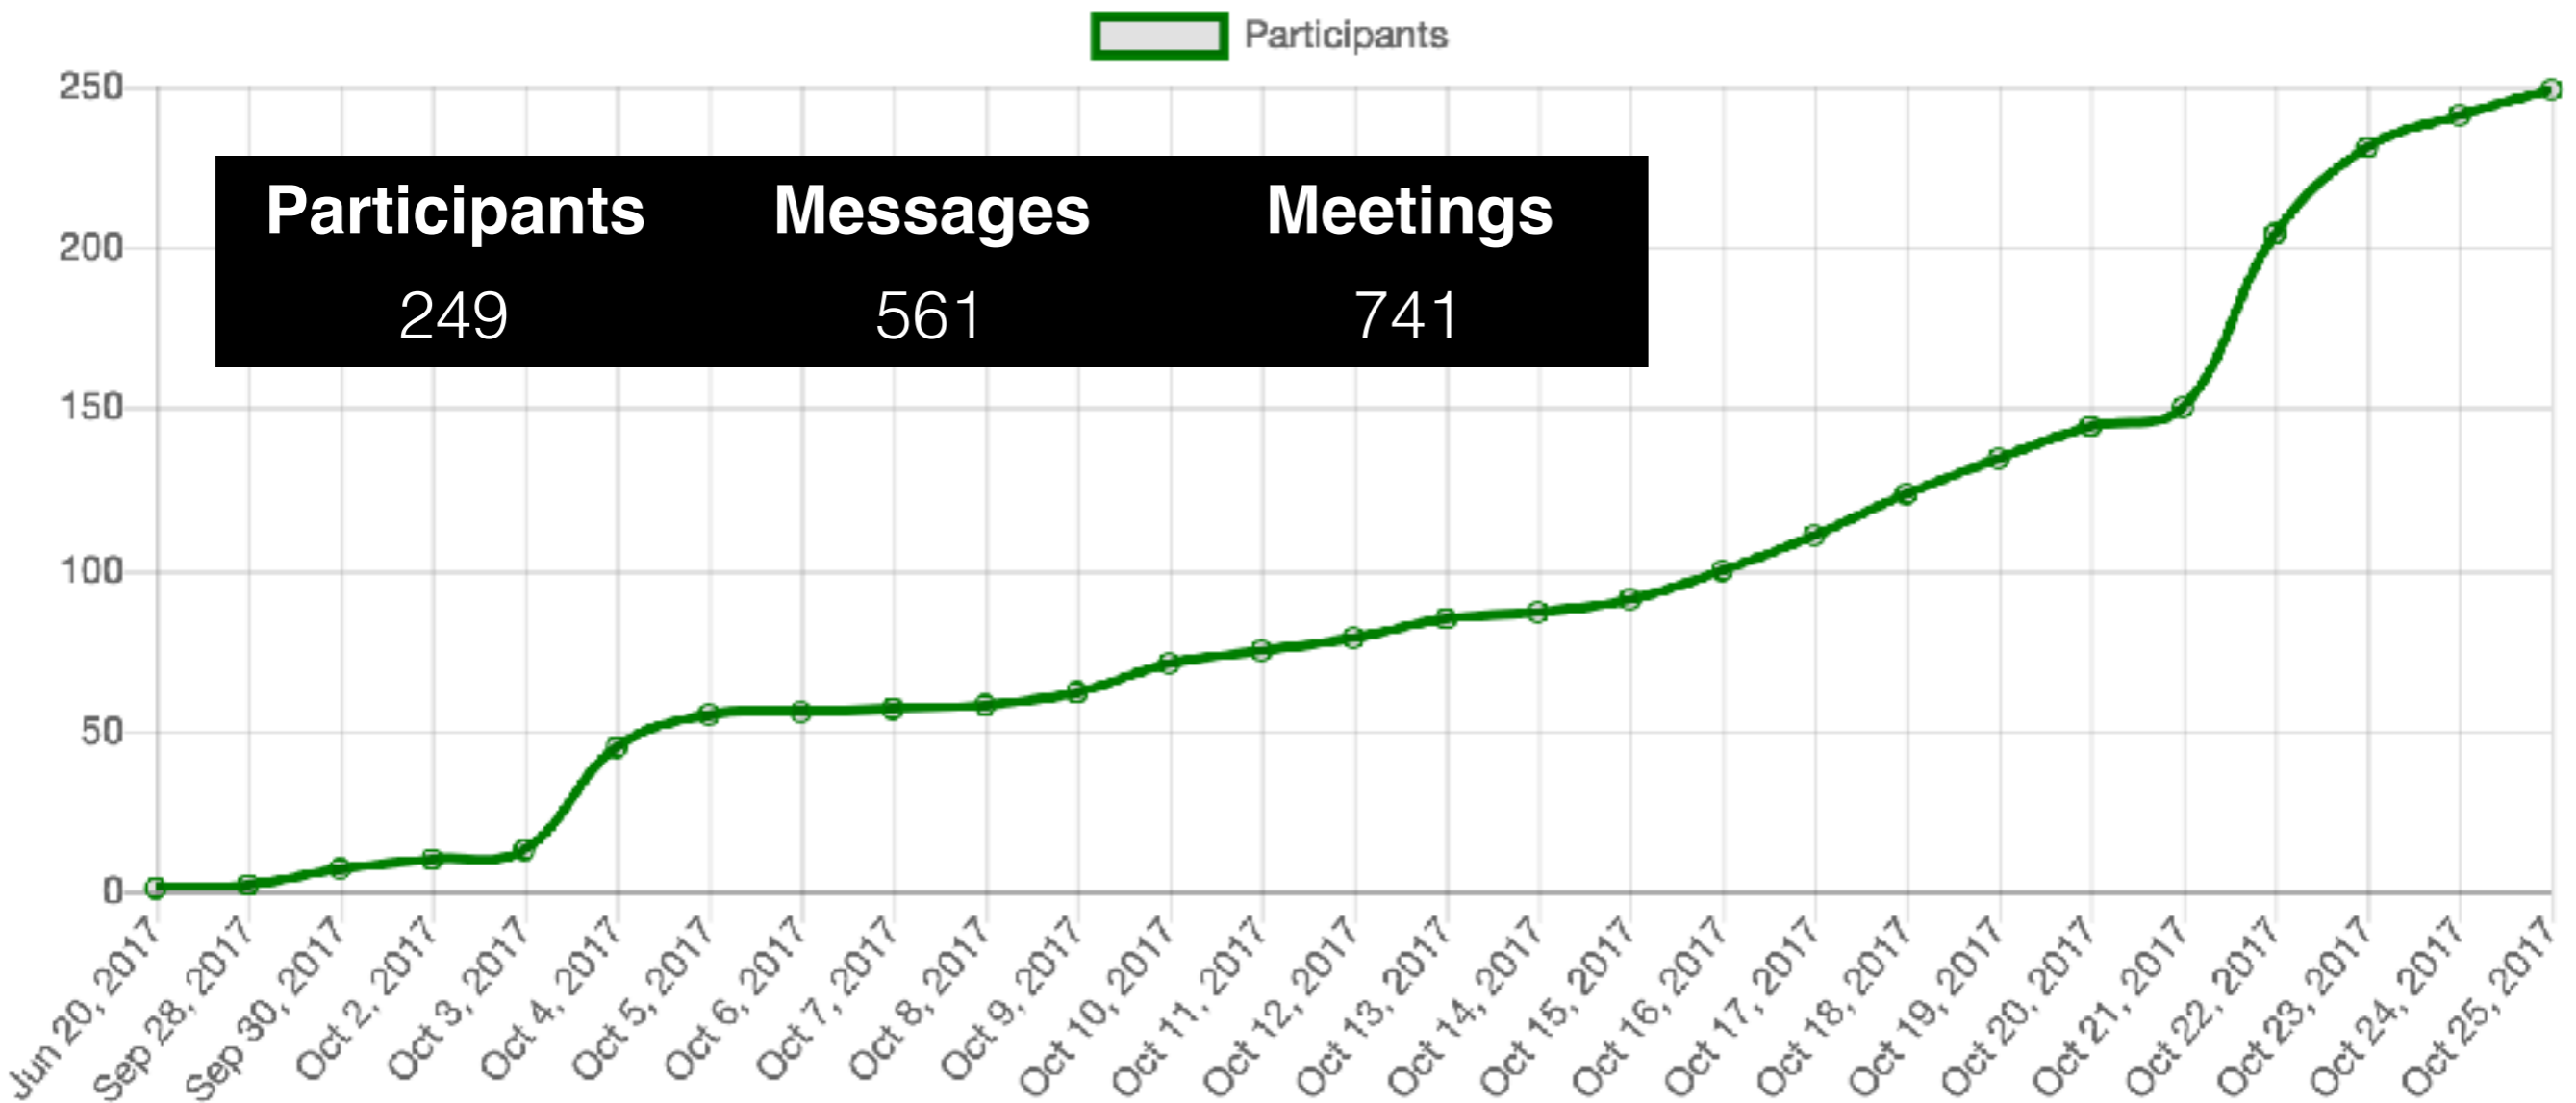

# DHCP Leases

# Webcast viewers

# RIPE Networking App

Thank you for your feedback, feature requests and bug reports - <https://surveymonkey.com/r/XYF5NV3>
