Internet of Things Working Group?

Discussion: Future work and an IoT WG?

RIPE IoT Working Group?

RIPE 75
Dubai, UAE
22 - 26 Oct 2017

- **What we need to present to the plenary**
 - A charter
 - A rationale (part of the charter)
 - (Two) volunteer(s) as “chair elect”
 - A volunteer to present this on Thursday
- **Other items to start a RIPE Working Group?**
 - Working group chair selection procedure
 - Plan to convert the mailing list to iot-wg@ripe.net?
 - Volunteers in community to contribute to the proposed work

Draft Charter (20 September 2017)

- To discuss challenges and opportunities of "IoT" for the RIPE community
- To serve as a focal point for the NCC regarding community input to their IoT activities, including liaisons
- To invite IoT communities to for a dialogue on matters of operational relevance, including security, the numbering system, and applicability of standards
- To develop positions of the RIPE community on IoT matters, operational and beyond

Proposed Charter

RIPE 75
Dubai, UAE
22 - 26 Oct 2017

- To discuss challenges and opportunities of "IoT" for the RIPE community
- To serve as a focal point for the RIPE NCC regarding community input to their IoT activities, including liaisons [with other organisations]
- To invite IoT communities to for a dialogue on matters of operational relevance, including security, the numbering system, and applicability of standards
- To develop positions of the RIPE community on IoT matters[, operational and beyond]

Call for Volunteers

- **Become the chair elect of the IoT Working Group**
 - Pending RIPE community consensus on IoT WG
- **Present at closing plenary Thursday**
 - Introduce the proposed charter
 - Coordinate with RIPE chair to seek consensus on IoT WG

Chair Selection Procedure

- **Consensus on using an existing procedure**
- **DNS WG was first suggested as the example to be used**
 - *Discussion around what to do when there is no direct consensus on candidates*
 - *Some opposition to DNS WG procedure to “Draw lots”*
 - *Other ideas on tie breakers? Use IPv6 WG text?*
